

# HOPE TAKES FLIGHT

An MAF Virtual Reality Experience

We are thrilled to introduce *Hope Takes Flight: An MAF Virtual Reality Experience*. This is a unique and immersive discipleship tool designed to bring the Great Commission to life for your church.

For most Americans, the ends of the earth often feels like an abstract concept. The remote, physically isolated communities that Mission Aviation Fellowship (MAF) serves are far beyond our everyday experiences. This detailed VR experience will help your church body grasp the urgent need for the gospel in these distant places, while simultaneously challenging each individual to consider their personal role in fulfilling the Great Commission.

## Experience Overview:

This immersive experience is designed around three distinct spaces to guide participants on a powerful journey:

### THE BOARDING AREA

Here, guests will learn about the core of MAF's mission, the specific location they'll "fly" to, and the importance of aviation in reaching isolated communities through help, hope, and healing.

### THE IMMERSIVE EXPERIENCE

Up to 10 guests at a time will don virtual reality headsets and be transported to an MAF airstrip. They will witness firsthand the impact of delivering critical supplies, medical aid, and the message of God's love to some of the most isolated places on Earth.

### THE NEXT STEPS AREA

After the VR journey, guests will have an opportunity to engage directly with MAF representatives and explore ways they can participate in the Great Commission—whether through prayer, giving, or even serving with MAF.

## Partnering with Your Church:

We work closely with your leadership team to tailor this experience for your congregation. To make the event possible, we need 3 distinct spaces to set up The Boarding Area, The Immersive Experience, and The Next Steps Area, as well as 5 volunteers from your congregation for these roles:

### 2 FLIGHT TEAM MEMBERS

- Checking in guests and providing a warm welcome
- Monitoring and resetting The Boarding Area for each flight
- Answering frequently asked questions from guests

### 2 GROUND CREW

- Assist with set up and tear down of the The Immersive Experience space
- Helping passengers store carry on items and adjust their headsets
- Sanatizing and resetting headsets after each flight

### 1 PILOT

- Assist with setting up the technology used for the experience
- Coordinate with crew members to ensure a smooth digital experience
- Managing the VR content

Our team will provide all the necessary training for volunteers ahead of time to equip them for success.

Are you ready to bring the ends of the earth a little closer to home? Contact us today to schedule *Hope Takes Flight* for your church community and join us in delivering hope where it's needed most.
